

Is there more to hyper-cholesterolemia management than LDL reduction?

Sub analyses of high-risk groups from the Odyssey Outcomes trial

In this focused symposium we will discuss the effect of LDL-c lowering in common high-risk patients, including patients with:

Diabetes, Impaired Renal Function, High Lipoprotein(a), Poly-vascular disease, and more.

Speaker	Time	Topic
Prof. Doron Zahger	12:45-13:00	Introduction + Statin use sub analysis
Prof. Shlomi Matetzky	13:00-13:10	Stroke + Polyvascular disease sub analyses
Prof. Yaron Arbel	13:10-13:20	Death & Age subanalyses
Dr. Ronen Durst	13:20-13:30	High Lp(a) + Diabetes sub analyses
All	13:30-13:45	Q&A + Discussion
